

Garbage recycling and Sustainable Environment

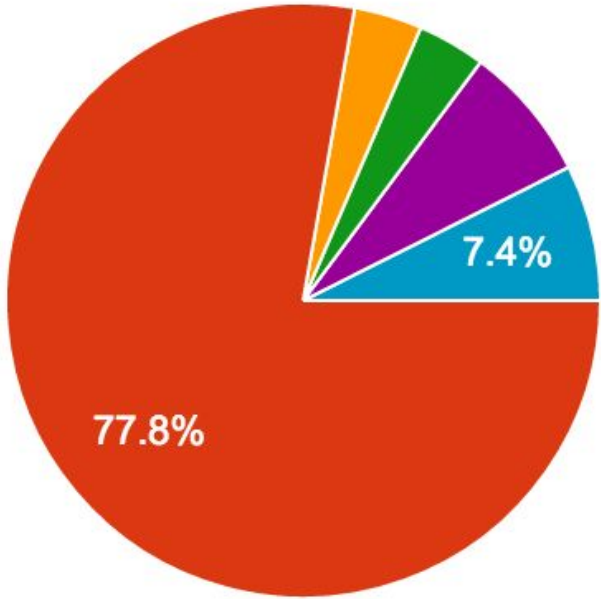

Mohammed Mustaqim Rahman, Md Rafiul Sabbir Hridoy

About

- We asked 10 questions to people about sustainable garbage recycling.
- Most of the questions were assertive(Yes/No)
- 30 people filled up the survey
- Most of them were from Asian sub-continent
- Some answers were pretty common from most of them and predictable

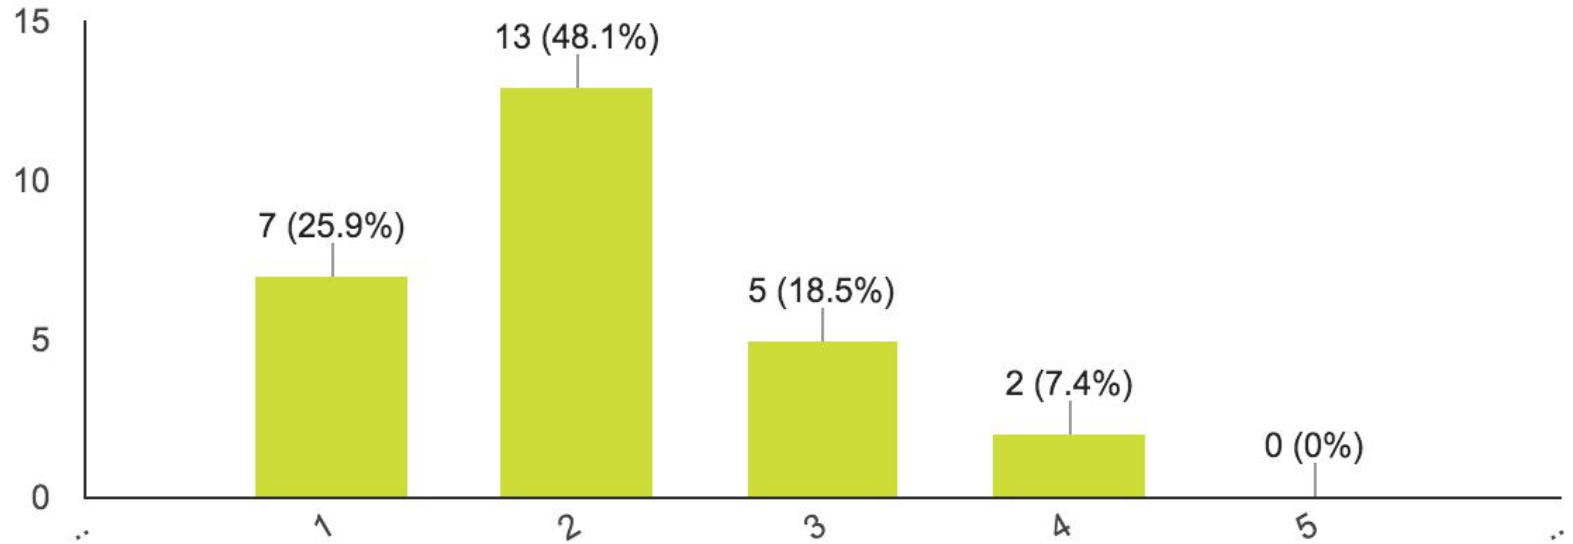

1. Which continent are you from?

30 Responses

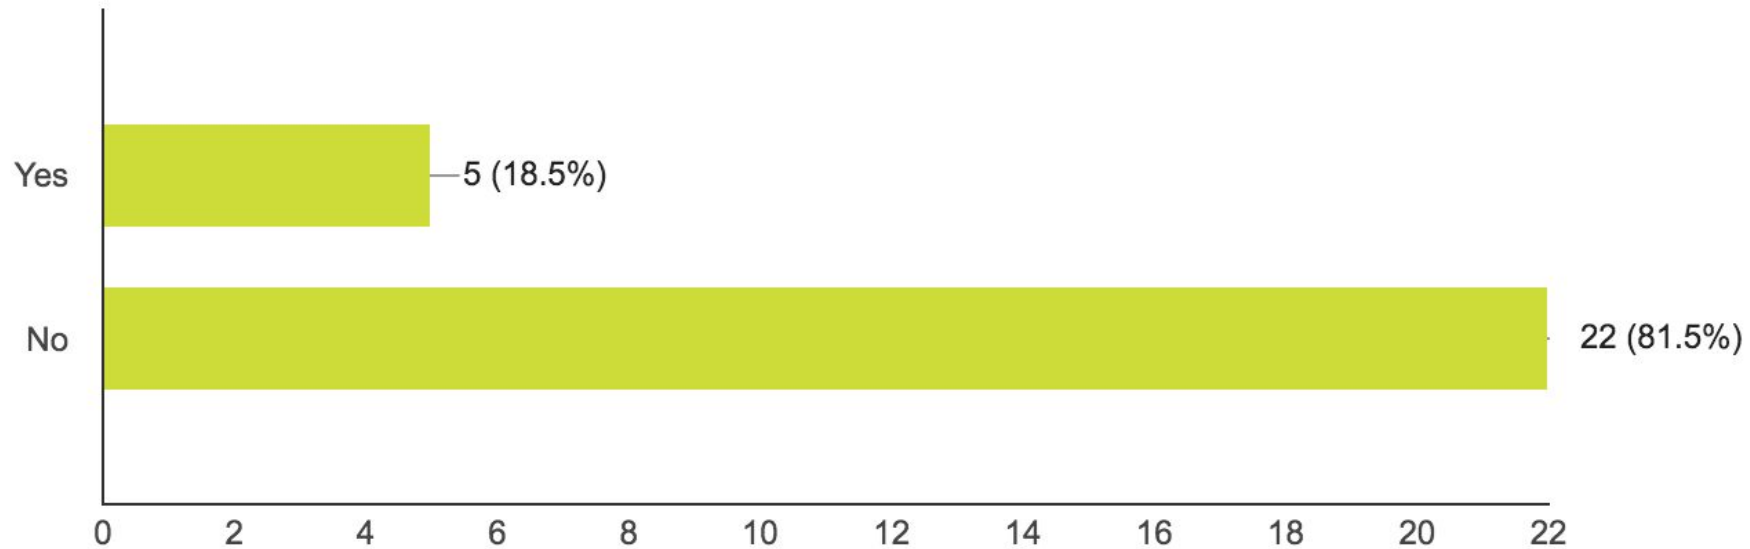

- Africa
- Asia
- Australia
- Europe
- North America
- South America

2.How efficient garbage collection system your city provides? 30 Responses

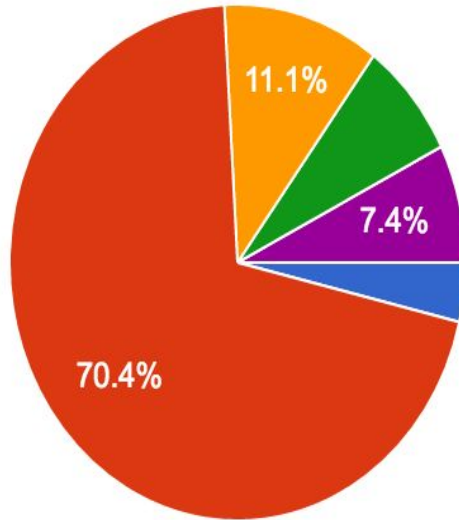

3. Do you sort your garbage in categories (plastic, paper, glass, etc.) when you through it?

30 Responses

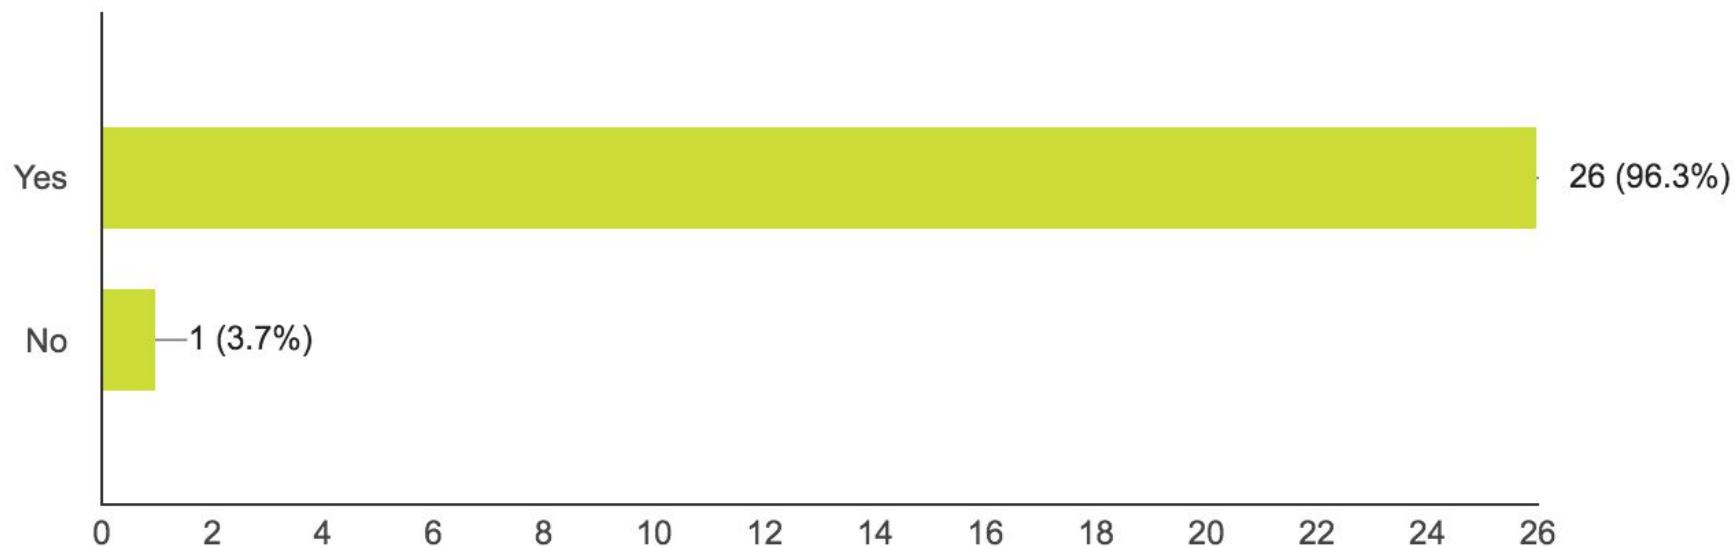

4. If not then please specify why? 30 Responses

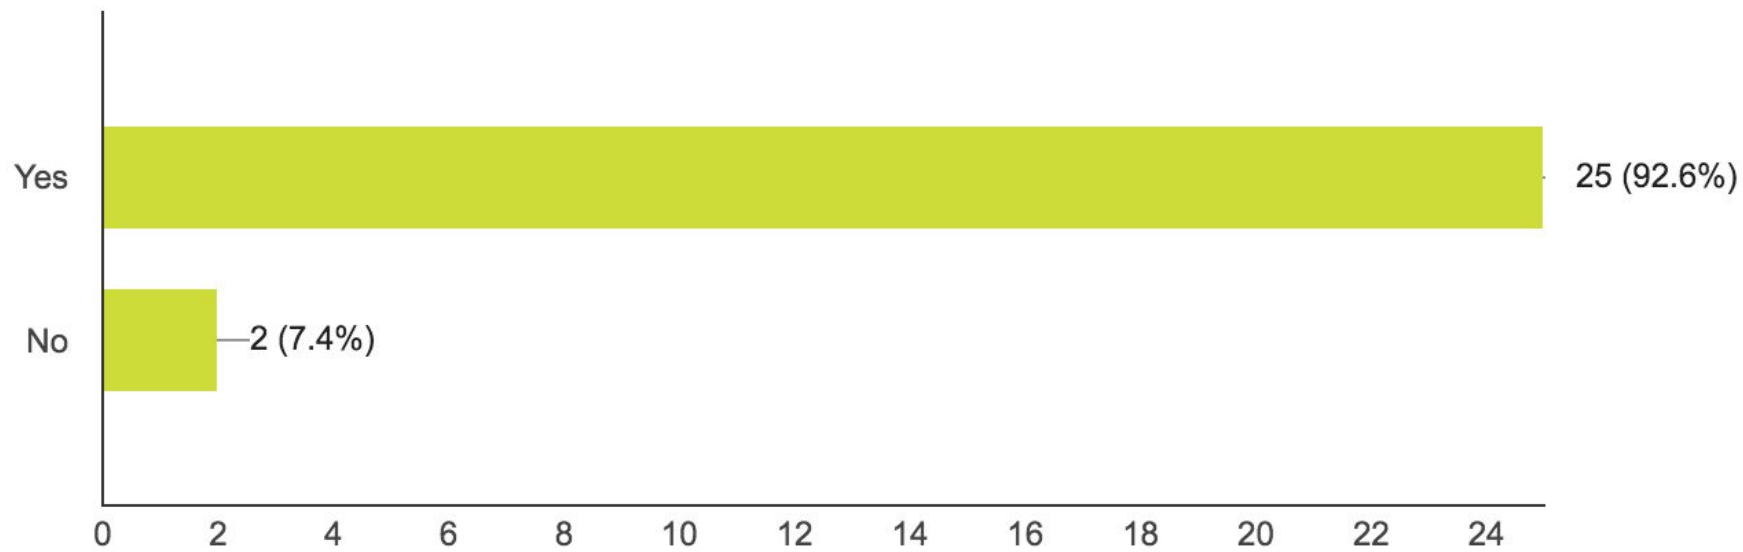

- I am too lazy to separate garbage
- Garbage separation does not exist where I live
- I want to but the system is too complicated/time consuming
- I do not care
- Other

5. Will you separate the recyclable wastes if you are provided with separate bin?

30 Responses

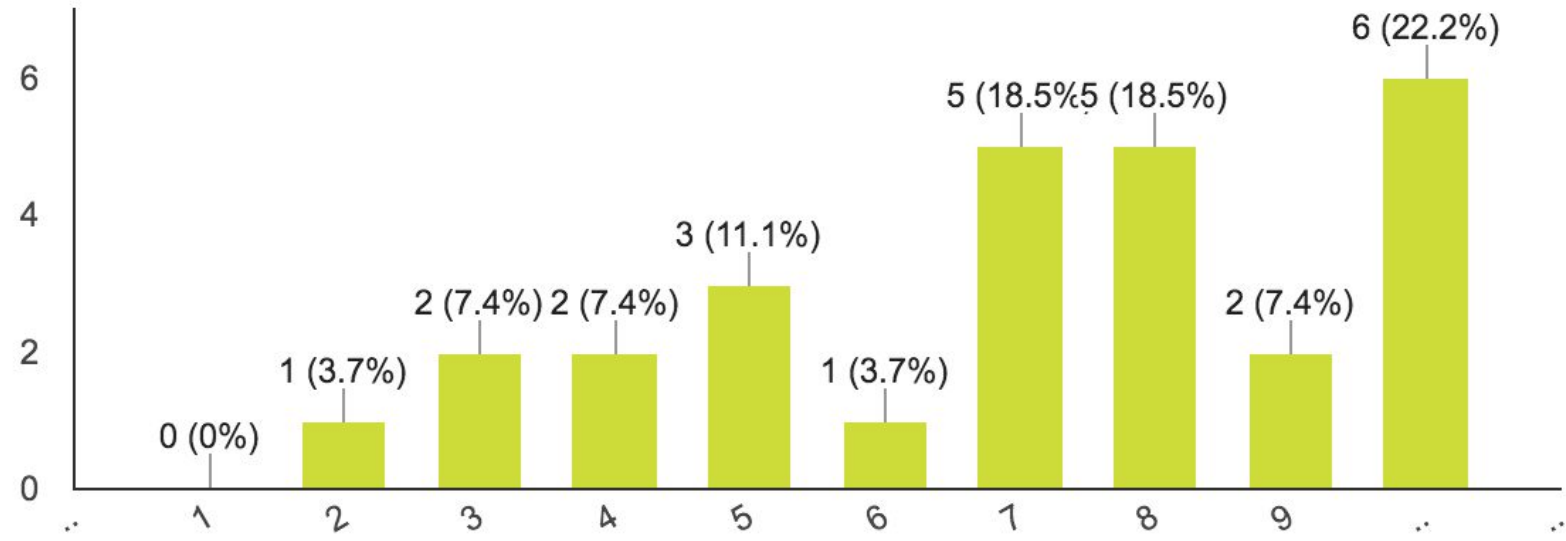

6. Will you separate the recyclable wastes if you are rewarded? 30 Responses

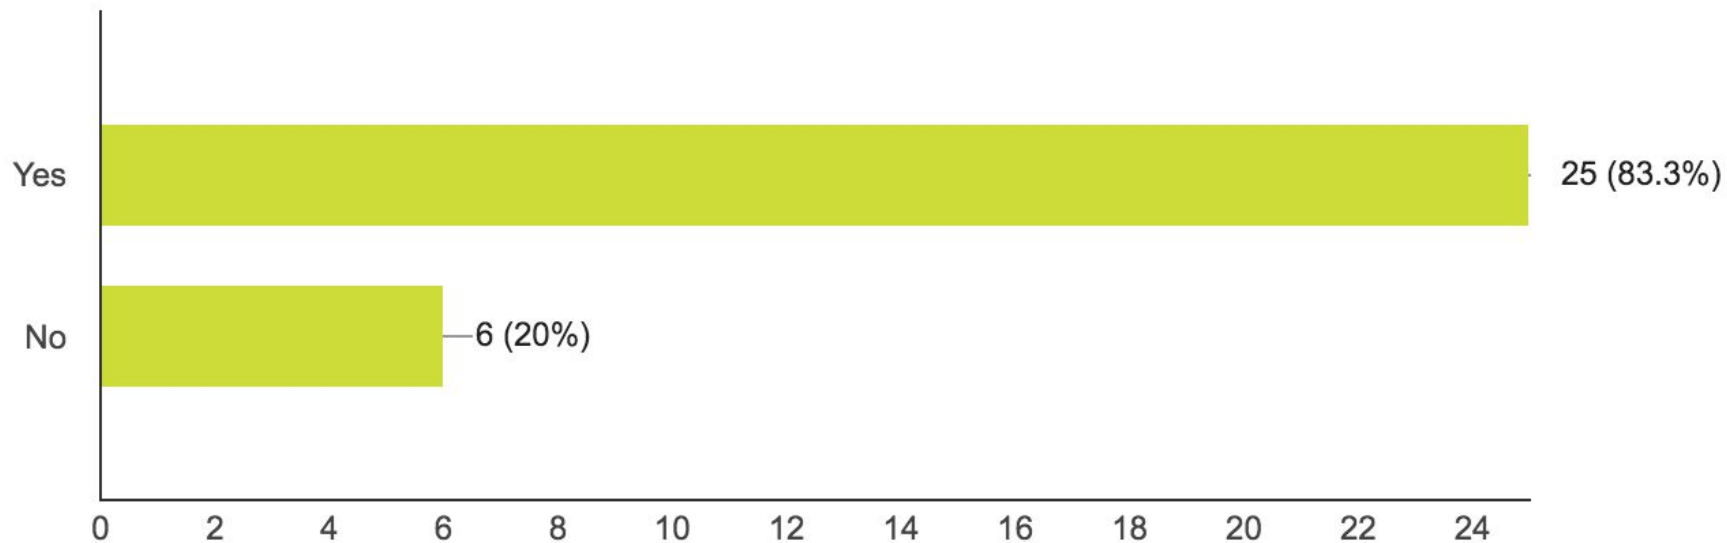

7. Do you think if a smart garbage collection system is implemented in your city it will be effective?

30 Responses

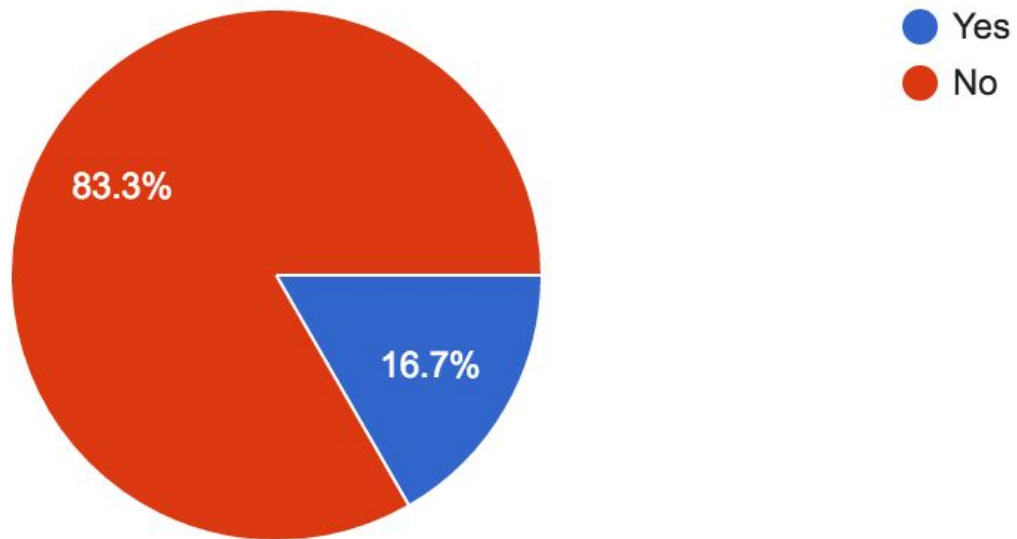

8. Do you know what is the meaning of the term "Environmental Sustainability"?

(30 responses)

9. Is your city corporation is concerned about sustainability ? (30 responses)

10. How Environmental Sustainability can be achieved in your city?

(14 responses)

I do not care

change of mentality, change of people

Removing all sort of corruption and implication of proper planning.

For every idea shared, the City of Perth will have a tree planted (up to 1000 trees) for our common future. The ideas you share will be considered as we develop the implementation plan.

Raising awareness among root level as well as all people and providing smart garbage system

Awareness program, Motivation, Implementation etc

If we're concern for ... We will do it... We have to work together

Through awareness building among the people and steps taken by the authority.

no idea

It can be achieved by increasing more awareness among the citizen.

by effective garbage management,planting a lot of trees.

with proper knowledge sharing and initiative by local government

I AM NOT FAMILIAR WITH THE TERM.

by killing a lot of bad people. now the question is how we separate good and bad people?
jokes apart.
govt. should take serious action on this
